

DATASHEET

Dear customer,

Thank you for choosing our product.

Please send us your final designed artwork in the form of a CMYK print PDF with the standard X3 or X4 and a bleed of 0.125". Please hide the template layer before PDF export.

In order to offer optimal quality, we recommend an image resolution of at least 300 dpi.

Once the data has been received, your data will be checked for product-specific functionality. However, we assume no responsibility for the typesetting content (text, images, layout).
